International Journal of Food Microbiology, 8 (1989) 371–374
Elsevier

Contents of Volume 8

Number 1, February 1989

D.M. Curran and T.J. Montville (U.S.A.)
Bicarbonate inhibition of *Saccharomyces cerevisiae* and *Hansenula wingei* growth in apple juice (JFM 00244) 1

C.K. Wilkins and S. Scholl (Denmark)
Volatile metabolites of some barley storage molds (JFM 00246) 11

F. Turantaş, A. Ünlütürk and D. Göktan (Turkey)
Microbiological and compositional status of Turkish white cheese (JFM 00247) 19

H. Windemann, J. Lüthy and M. Maurer (Switzerland)
ELISA with enzyme amplification for sensitive detection of staphylococcal enterotoxins in food (JFM 00248) 25

R.K. Mulyowidarso, G.H. Fleet and K.A. Buckle (Australia)
The microbial ecology of soybean soaking for tempe production (JFM 00251) 35

N. Bratchell, A.M. Gibson, M. Truman, T.M. Kelly and T.A. Roberts (U.K.)
Predicting microbial growth: The consequences of quantity of data (JFM 00252) 47

N. Skovgaard and B. Nørrung (Denmark)
The incidence of *Listeria* spp. in faeces of Danish pigs and in minced pork meat (JFM 00253) 59

S.A. Rose, P. Bankes and M.F. Stringer (U.K.)
Detection of staphylococcal enterotoxins in dairy products by the reversed passive latex agglutination (SET-RPLA) kit (JFM 00255) 65

Short Communications

B.I. Aderiye, S.K. Ogundana, S.A. Adesanya and M.F. Roberts (Nigeria, U.K.)
The effect of β-sitosterol on spore germination and germ-tube elongation of *Aspergillus niger* and *Botryodiplodia theobromae* (JFM 00249) 73

F. Humbert, G. Salvat, P. Colin, C. Lahellec and G. Bennejean (France)
Rapid identification of *Salmonella* from poultry meat products by using 'Mucap test' (JFM 00250) 79

M.A. El-Shenawy and E.H. Marth (U.S.A.)
Behavior of *Listeria monocytogenes* in the presence of sodium propionate (JFM 00254) 85

0168-1605/89/$03.50 © 1989 Elsevier Science Publishers B.V. (Biomedical Division)

Number 2, May 1989

W.B. Van der Riet, A. Botha and S.E. Pinches (Republic of South Africa)
The effect of dimethyldicarbonate on vegetative growth and ascospores of *Byssochlamys fulva* suspended in apple juice and strawberry nectar 95

D. Tuma, R.N. Sinha, W.E. Muir and D. Abramson (Canada)
Odor volatiles associated with microflora in damp ventilated and non-ventilated bin-stored bulk wheat 103

J. De Jong (The Netherlands)
Spoilage of an acid food product by *Clostridium perfringens, C. barati* and *C. butyricum* 121

M.J. Ikenebomeh (Canada)
The influence of salt and temperature on the natural fermentation of African locust bean 133

G.F. Panina, A. Civardi, I. Massirio, F. Scatozza, P. Baldini and F. Palmia (Italy)
Survival of foot-and-mouth disease virus in sausage meat products (Italian salami) 141

K. Krovacek, M. Peterz, A. Faris and I. Månsson (Sweden)
Enterotoxigenicity and drug sensitivity of *Aeromonas hydrophila* isolated from well water in Sweden: A case study 149

S.J. Lewis, A. Gilmour and D.E. Johnston (U.K.)
Factors influencing the detachment of a polymer-associated *Acinetobacter* sp. from stainless steel 155

M. Tiina and M. Sandholm (Finland)
Antibacterial effect of the glucose oxidase-glucose system on food-poisoning organisms 165

I. Perales and A. Audicana (Spain)
The role of hens' eggs in outbreaks of salmonellosis in north Spain 175

Number 3, June 1989

Editorial Note iii

Conclusions of the panel meeting held at the tenth
International Congress on Listeriosis 181

D.A.A. Mossel (The Netherlands)
Listeria monocytogenes in foods. Isolation, characterization and control 183

D.J. Pusch (U.S.A.)
A review of current methods used in the United States for isolating *Listeria* from food 197

B. Ralovich (Hungary)
Data on the enrichment and selective cultivation of listeriae 205

R.E. Brackett and L.R. Beuchat (U.S.A.)
Methods and media for the isolation and cultivation of *Listeria monocytogenes* from various foods 219

W. King, S. Raposa, J. Warshaw, A. Johnson, D. Halbert and J.D. Klinger (U.S.A.)
A new colorimetric nucleic acid hybridization assay for *Listeria* in foods 225

W.F. Bibb, B. Schwartz, B.G. Gellin, B.D. Plikaytis and R.E. Weaver (U.S.A.)
Analysis of *Listeria monocytogenes* by multilocus enzyme electrophoresis and application of the method to epidemiologic investigations 233

S. Ortel (G.D.R.)
Phage-typing of *Listeria* 241

H.P.R. Seeliger and B. Langer (F.R.G.)
Serological analysis of the genus *Listeria.* Its values and limitations 245

S. Ortel (G.D.R.)
Listeriocins (monocins) 249

A. Audurier and C. Martin (France)
Phage typing of *Listeria monocytogenes* 251

A.R. Datta and B.A. Wentz (U.S.A.)
Identification and enumeration of virulent *Listeria* strains 259

J. Smola (Czechoslovakia)
Possibilities of differentiation of listerial hemolysins by synergistic hemolytic reactions (CAMP reactions) 265

B. Ralovich (Hungary)
Methods to determine virulence of *Listeria* strains 269

W.F. Schlech III (Canada)
Methods to determine the virulence of *Listeria* strains 273

G. Terplan and S. Steinmeyer (F.R.G.)
Investigations on the pathogenicity of *Listeria* spp. by experimental infection of the chick embryo 277

A. Schönberg (Berlin)
Method to determine virulence of *Listeria* strains 281

J.M. Farber (Canada)
Thermal resistance of *Listeria monocytogenes* in foods 285

J.L. Cordier, T. Putallaz and L.J. Cox (Switzerland)
Impedimetric determination of activity of disinfectants and detergents on *Listeria*: Preliminary study 293

Number 4, July 1989

P. Van Netten, I. Perales, A. Van de Moosdijk, G.D.W. Curtis and D.A.A. Mossel (The Netherlands, Spain, U.K.)
Liquid and solid selective differential media for the detection and enumeration of *L. monocytogenes* and other *Listeria* spp. 299

J. Chenevert, J. Mengaud, E. Gormley and P. Cossart (U.S.A., France)
A DNA probe specific for *L. monocytogenes* in the genus *Listeria* 317

E. Prusak-Sochaczewski and J.H.T. Luong (Canada)
Utilization of two improved enzyme immunoassays based on avidin-biotin interaction for the detection of *Salmonella* 321

M.J. Eyles and A.D. Warth (Australia)
The response of *Gluconobacter oxydans* to sorbic and benzoic acids 335

A.D. Warth (Australia)
Relationships between the resistance of yeasts to acetic, propanoic and benzoic acids and to methyl paraben and pH 343

M.J.R. Nout, F.M. Rombouts and A. Havelaar (The Netherlands)
Effect of accelerated natural lactic fermentation of infant food ingredients on some pathogenic microorganisms 351

Short Communication
M. Etcheverry, A. Dalcero, S. Chulze, N. Apro, S. Fusero and M. Farnochi (Argentina)
Studies on damage to sunflower seeds: Water activity, germination, acidity index and aflatoxin B_1 presence 363
